

**Anand Kumar Rajasekharan, PhD** student at Department of Chemistry and Chemical Engineering, Chalmers University

---

Anand Kumar Rajasekharan, PhD student at Department of Chemistry and Chemical Engineering, Chalmers University. I started my PhD in 2014 in Professor Martin Andersson's group. My project focusses on the design and development of bone-inspired nanocomposites towards applications as bone implants.

We apply a combination of molecular self-assembly and additive manufacturing to form synthetic composites inspired from the chemistry and structure of bone. I received my MSc degree in Chemical Engineering from Chalmers university in 2014.
